

Organic Waste

Where does it go?

All items placed in this cart will get processed at our Material Recovery Facility then sent to a processing facility where it will be heated and transformed into energy or turned into mulch for farms.

No household hazardous items are accepted in ANY container
Call (888) CLEAN-LA to find out how to properly dispose.

Batteries

Harsh Chemicals

Fuel/Oil

Anti-Freeze & Pesticides

Paint

Sharps and Medicine

Trash & Recycling

Where does it go?

The collection of both recyclables and trash in one bin is referred to as mixed waste processing. The trash and recyclables placed in the mixed waste bin are sent to our Material Recovery Facility where the recyclables are separated from the trash and sorted to be recycled, compliant with state recycling laws.
